AYLIEN's Content Aggregation

Global coverage from every country:

Comprehensive coverage from 200 countries, so that you can search and monitor news wherever it breaks and whatever the view.

Multilingual content and translation:

Full search, analysis, and translation support for every article in 5 other languages (German, French, Spanish, Portuguese, Chinese).

Enterprise-ready platform:

Why build and maintain complex scraping technology when all you have to do is sign up for AYLIEN's ready-made solution?

Sources you can trust:

600,000 articles a day in real time, from 80,000 curated sources, so you can search for quality news with absolute confidence.

Historical access to enriched articles:

Historical access to enriched articles: Our NLP-enriched archive enables you to search over 300 million articles.

Every article NLP-enriched:

With 26 data points, including entity and category tagging, sentiment analysis, and metadata extraction.
